

YOUR NEIGHBORHOOD IS OUR SPECIALTY.

Protecting your health is our job, too.

WE'LL BE THERE FOR YOU 24 HOURS A DAY, 7 DAYS A WEEK, 365 DAYS A YEAR!

We can help you regain your independence and freedom—while making your home safer. A Personal Emergency Response System (PERS) keeps you connected with our monitoring centers 24/7, 365 days a year.

We will be there for you!

Our friendly employees have been specially trained as PERS operators. They will be there to assist you in your times of need—or just to check in and see how things are going.

Your Personal Emergency Response System includes a PERS emergency panic pendant that you wear. We also make scheduled calls to your home phone and engage in a conversation to determine your wellness—and see if you need any special help.

We also take care of these important health care needs:

- **Medication Reminders:** Our operators can call you and remind you to take your medication.
- **Emergency:** If at any time you are distressed, the Personal Emergency Response System panic pendant device can notify our operator of an emergency—and we will immediately send help.
- **Inactivity:** If our operators detect no movement for a pre-determined period of time, an alarm is triggered and we immediately send help.
- **Fall Detector:** Our operators are even able to identify a possible fall and follow up with your contact list to ensure safety. If at any time there is an emergency or the need for any type of service, we'll notify the proper authority and the contacts you have placed on your personal call list.

Our main goal: We want to protect the safety and well being of you or your loved one—and we never rest or take a day off!

Call us first for monitoring you can count on!
